

Suspects Round

Having identified the murder weapon from the evidence gathered the past week, I must now work quickly to apprehend the cold-blooded murderer before the person strikes again.

I fear the worst that the murderer might have played a part in Holmes' mysterious disappearance. Is this really Holmes' final puzzle? Inspector Lestrade has already gathered the six suspects at 221B Baker Street today. I can only rely on your help as I interview each of the suspects to solve this case.
